---

## Mondays **Boat Building Regatta**

Learn how to build a boat that will be tested out in the water by our staff, and have the opportunity to test it yourself in the spring. Together with the instructor, you will go through the process of leaning about boat design, making a plan, and using tools & simple materials to build a working boat. **No class on 10/12.**

---

## Tuesdays **Fishing Adventures**

Learn about the native freshwater and saltwater fish here in Rhode Island and the specific types of environment they like to reside in. Learn about the various types of lures and bait used to mimic the fish's food and test out your fishing skills at different locations in and around Wickford harbor on the boat, *The General* (a US Coast Guard inspected 26 ft. vessel). **Dress appropriately for outside activity on the water.**

---

## Wednesdays **Model Boat Building**

This model boat building class is an interactive program that promotes manual dexterity and skill along with the joy of completing a project you build yourself. A variety of boat models and other small projects introduce students to planning, following directions and learning how to use new tools. **No class on 11/11.**

---

## Thursdays **Disaster Readiness Training**

This program is derived from our US Navy Sea Cadet program on disaster readiness training. Learn how to respond when things go wrong and how to think ahead & be prepared for life's inevitable misadventure. Presented by our experts in this field and using community emergency personnel, kids will become familiar, thoughtful and empowered to take correct action both before and when an emergency arises.

---

## Fridays **Simple Machines**

Learn how simple machines in our homes and all around us make work easier. Our goal is to foster an understanding of the principles of how things work. The instructors will guide you through hands-on activities to explore the uses of pulleys, levers, wedges, wheels, inclined planes and screw mechanisms. Everyone will be able to create their own gadget.

**Cost: \$80 per course  
per 4 week session**

All courses for ages 7 to 15  
Time: 4 to 6 pm

Session 1 runs 9/21 - 10/19  
Session 2 runs 10/26 - 11/18

Specialty instructors will assure quality instruction with courses organized to accommodate age and skill levels

**Courses fill up fast  
so register today!**
